ETPA CWA Section 404 Hot Issue Final.doc

Having made the mistake of answering my phone, despite the caller ID, I've been asked to compile the paragraphs you guys put together for Michael's request.

Phil, he mentioned Chuitna & Pebble, specifically.

Non-Responsive

He needs them by Tuesday p.m., so please try to get them to me by Tuesday a.m. Thanks (& sorry)!

Folks,

I really need your help on this request:

Background: Brian Frazer, Chief of the Wetlands and Aquatic Resources Regulatory Branch, Office of Wetlands, Oceans, and Watersheds along with Donna Downing and Christopher Hunter called a meeting between EPA Region's 8,9, and 10 to learn more about our Regional Structure, to hear about what unique things we are working on, and what specific regulatory projects (both Permit Applications and Jurisdictional Determinations) we are currently reviewing or working on in each of our Regions. This meeting was something that Brian pulled together earlier this week in advance of the National Meeting.

Non-Responsive

Anyway, Brian asked me to host the management level meeting in Seattle on March 31 and half day on

April 1st.. This is a challenging time to find conference rooms, etc due to lots of regional training. So, I could not reserve any video conference equipment for a quick meet and greet. Seattle folks, I will work with you on the schedule so hopefully you can come up to the 19th floor and introduce yourself.

Need: I am going to need everyone's help to pull together some briefing materials. I do not want to make this a major effort, so if each State can work together to develop something that follows the format used below, I think we can do this fairly quickly. Good news is that we do not need to duplicate the projects listed below.

data - no need to duplicate that effort). Focus on specific projects (ie Puyallup Tribal Terminal, Pebble Mine, AK Rail Extension, Columbia Crossing, etc.);

I would need to have these by COB Tuesday March 30th. I know this is last minute and several of you will not be available. Please do your best.

Thanks
